PRICES

Take the Tide of Fashion as Its Rise
Take the Tide of PRICES as Its Ebb

Not a day passes that we are not told by our customers that this or that article, iden-
tical in every way, it being sold cheaper in THIS STORE than ELSEWHERE. This has
been commented on so frequently that a statement of why it is so is in order.

We came to the conclusion months earlier that merchandise could not go up—there-
fore, it must go down. Consequently, we placed no orders for this present season. Fig-
ures show that merchandise began to decline in price recently. Many lines we sell have
lessened in price during the past few months. Not having bought fall goods early we
were in a position to buy on the new and lower price scale during August and September.

ALL GOODS WE HAD IN STOCK IN THESE LINES WERE ALSO MARKED AT
THE LOWER PRICES.

This is the reason you fine standard, depend-
able merchandise in this store at lessened prices.

We want to thank out customers greatly; it is they who tell us daily that our goods
are less, in many lines, than at other stores. Your interest in us shall return to you with
interest in the best possible prices we can legitimately make,

SHOES

We now have on hand a full and complete line of
ALL-LEATHER SHOES for the entire family, and we
are prepared to give you full value for every dollar.

There has been some decline in the shoe market
and by buying late we can give our customers full bene-
fit of the declines.

Ladies Suits, Coats, Dress- es and Hats.

We want to especially call your attention to our line of Lad-
ies READY-TO-WEAR. We have just received a full line of Ladie
Suits, Coats, Dresses and Hats. These are all in the newest mat-
erials and latest styles direct from the manufacturers, and we
have some ATTRACTIVE prices to make you on them. It will
pay to visit our store before BUYING.

FORDSON FARM TRACTOR

The Fordson cuts the cost of preparing land almost to half of what it cost with horses.
But even more important is the fact that the Fordson saves from thirty to fifty percent of
the farmer's time. And time saved—getting fields in shape to plant in the proper season;
getting things done when they should be done—means money to the farmer. Besides it
helps greatly in solving the labor problem.

As ever, the machine way is proving more efficient, faster, easier than the old hand
way. In the factory, the machine increases production, saves labor—produces more at less
cost. And that is what the Fordson does on the farm. The Fordson way is the machine
way of farming. Besides it helps the labor problem.

The Fordson's first cost is low and after or operating cost is low. It is a compact,
easily handled tractor, backed by the greatest tractor service organization in the world.

We are Fordson dealers. Not only do we sell Fordson tractors, but we carry a stock
of Fordson parts and employ Fordson mechanics to help the farmers get the best results
from the Fordson. Let us demonstrate the Fordson on your own farm.
